3 UNIDENTIFIED FEMALE: Good morning,
4 today is Wednesday, February 17, 2021 and here at
5 the Board of Elections in the City of New York we
6 will conducting the random draw for the audit of
7 the central ballot scanners used in the Queens
8 special election of the 24th Council on February
9 2, 2021. We will start with opening the file
10 containing the scanners given to us by S elect,
11 then we will receive a sequence from Random.org
12 after entering the given number of EDs into the
13 corresponding Random.org field. We will then copy
14 and paste the generated sequence into the
15 corresponding column of the spreadsheet, sort the
16 data accordingly and generate which scanners will
17 be used for the three percent audit. Both the
18 spreadsheet and the Random.org generated sequence
19 will be saved separately.

20 UNIDENTIFIED MALE: Okay. So we begin
21 by entering a range of numbers in the Random.org
22 sequence column by going to Random.org, okay, I'm
23 going to get rid of that one. And we have 66 EDAD
24 scanners. So it's going to be from one to 66, or

1 February 17, 2021
2 maybe not. Let me try this one. Okay. Let's get
3 the sequence. Here's our numbers, we're going to
4 copy these numbers. Copy and paste them into our
5 spreadsheet right here. Alright. And these are,
6 we're going to sort these in order, for the
7 scanners, EDADs, and put them in the sequence
8 order. So we go data, sort, we have headers and
9 we want to sort column D, smallest to largest and
10 hit okay. and the calculation for the three
11 percent is 66 times three percent, round up,
12 comes to two. So these are the ones to be
13 audited, and let's highlight that in yellow, yes,
14 alright, it looks good.

15 UNIDENTIFIED FEMALE: Go back and save
16 them.

17 UNIDENTIFIED MALE: And go back and save
18 them, thank you. I'm going to hit save here. Now
19 we want to save what we did on Random.org by
20 printing it to a .PDF, hit print, key one,
21 special, this is for --

22 UNIDENTIFIED FEMALE: EDADs.

23 UNIDENTIFIED MALE: -- go to, that
24 doesn't work, huh.
